

This is in reference to the no call list. I do not want my name or phone number put back into the system. I do not want "ANYONE" calling me at home. That means government, police, banks, newspapers, credit cards or anyone else that thinks they have a right to bother me at home and beg for money or donations. If people want to get donations then they should put ads on TV in the newspaper or the radio. Then if I want to participate or donate money to there cause then at least I would have the option to contact those organizations. And I think it should be against the law to have Credit Card companies mailing people all kinds of stuff in the mail to sign up for credit cards. Anyone can get those and sign a persons name and steel your identity. I know its easy to steel an identity but this is just giving it away with no control from the owner of that name. Think about that sometimes. Nancy
